# OUR GIFT TO YOU

# How to use this meal plan

The recipes in this meal plan constitute one day of eating and you will eat five times a day.

The five meal categories that comprise your daily calorie intake are:

- **Breakfast**
- **Post Workout**
- **Lunch**
- **Dinner**
- **Evening Snack**

Choose one recipe from each meal category option and eat at any time of the day, within a 24 hour period.

If you prefer to batch cook, simply multiply the ingredients by seven and that will make seven meals. Put half in the fridge, and freeze the rest. Take your frozen meals out the night before you need them.

You cannot replace a meal with one from another category.  For example, you cannot have two lunch meals instead of a breakfast meal as this will throw the macros off. One meal must be chosen from each category for each meal. You can, of course, change the order of the meals. You just cannot skip choosing from one category You cannot swap recipes between plans, such as the vegan and non vegan plan.

**NOTE:** As we are a vegan company, we request that when you discuss these meal plans in The Sculpted Vegan communities or coaching calls, you use the wording “non-vegan protein” rather than the specifics of eggs, chicken, etc., to be respectful to our vegan members. We would really appreciate it. Thank you!
